## CLIMATE COMES FIRST

The Zurich Convention Center Ltd. has been certified by ClimatePartner since 2019, ensuring that every event is climate neutral, with no additional cost for organizers.

## ENERGY FROM THE LAKE

To support the City of Zurich's climate goals, we use lake water as a natural source for heating and cooling. A heat pump inside the building converts the energy from Lake Zurich into warmth or cooling, depending on the season. The water then flows back into the lake unchanged, creating a closed, local and CO<sub>2</sub>-free energy cycle that operates right on our doorstep.

## WE ARE SWISSTAINABLE

The Zurich Convention Center is part of the Swisstainable sustainability program and classified at Level II – engaged. This reflects our commitment to responsible corporate management and continuous development – contributing every day to a more sustainable Swiss tourism.
